VETERAN CAR COMPANY LIMITED

LIST OF MAKES OR MODELS OF VEHICLES THAT MAY NOT BE ELIGIBLE FOR CONSIDERATION FOR THE GRANT OF A VCC VETERAN PASSPORT

In order to simplify the application process for a VCC Veteran Passport and to avoid disappointment, the Dating Advisory Committee of Veteran Car Company Limited has produced the following list of makes and models which will, generally, be excluded from consideration for a VCC Veteran Passport without compelling evidence (as set out in the Dating Rules of Veteran Car Company Limited) of completion before 1st January 1905. This list is not exhaustive and may be amended from time to time. The list also may not include makes which commenced manufacture only after 31st December 1904. It may include models made by manufacturers, which were in existence in 1904, but which are unlikely to have been completed before 1st January 1905. Owners or potential owners of any car who have aspirations of participating in the LBVCR in that car should consult Veteran Car Company Limited before applying for a VCC Veteran Passport to ascertain whether the make or model of which their car is an example has been added to this exclusion list.

All vehicles of unknown make
